The hand of Speaker Banks does not appear in the case, though he is supposed to be Sheriff Hawley's chief competitor for the position of county boss. If the Sheriff did take a hand in this Peck-Johnson contest and did exercise a decisive influence as county boss, it was an error of judgment upon his part. The very last thing with which an official should meddle, however desirous of dispensing rewards or punishments as county boss, is in the choice of a man, one of whose duties will be to audit his accounts. It tends to engender suspicions of something to be concealed. We do not wish to be understood as even intimating that the Sheriff's accounts need a friendly auditing by one owing his position to the Sheriff, but officials should be, like Caesar's wife, above the possibility of suspicion even by their enemies.

There is rather more than a probability that the General Assembly will, before it adjourns, create a Public Utilities commission, one of the duties of which will be to prevent the watering of stock. Corporations must prove that proposed increases in stock are warranted and not designed to disguise abnormally large net earnings and as a means of reducing dividend percentage, while really paying the same in amount. The burden of proof will be upon the corporations and, if the commission is properly constitut- for the opponents of prohibition. ed, there can be no "cutting of melons" in the form of stock dividends.

There are already indications that such public utility corporations as are earning more than a fair return upon their present capital, will ask the General Assembly for permission to increase their stock, before the creation of the Public Utilities commission, and to thus escape an inquisition by the commission, with a possible prohibition of stock increase.

It would be manifestly unfair to charge all capital-increase propositions JURY DISAGREES IN THE GOW TRIAL with such motives, but the committee on Incorporations should make its examinations and base its decisions in about the same manner and to the same effect as would a fairly constitut- liam Gow, charged with the larceny of ed Public Utilities commission.

### PLAN TO RETIRE MATRON HILL OF POLICE STATION

Her Rooms are Wanted by the Board of Charities for the Driver of the Ambulance-Plan Includes Combination of Duties of Police and Emergency Matrons in One Individual.

The most important problem before the Board of Charities at present is to provide rooms for Driver Burlison of the auto-ambulance so that he can be ready to respond to calls at any hour of the day or night. The matter was discussed at the regular meeting of the board last night. The Police and Charities building is under the control of a committee consisting of the Mayor and the presidents of the Boards of Charities and Police. The building has been divided between the two departments by an invisible line. When the building was constructed rooms were built to provide wards for patients dependent upon the Board of Charities. There are six of these rooms. Three on the second floor and three on the upper floor. It was the original intention of the building committee to provide quarters for the police matron on the upper floor over the City court room. The loft rooms are under the roof and undesirable. They never were finished. The plan of caring permanently for patients at tor of 14 stores and markets about the the Emergency hospital was abandoncity was guest of honor at the third ed when the hospital was removed annual banquet of the D. During that time her services have been very satisfactory to the department and to the will be missed should she retire. What the Board of Police Commissioners will do remains to be seen, but the plan to retire Mrs. Hill is in the works and will be carried out by its promot-
